

PURGE-READY CENTRIFUGE FOR A FUTURE-PROOF INVESTMENT

Ferrum centrifuges combine Swiss precision with a strong customer focus. Built to the highest standards, they deliver reliable, high-performance solutions backed by decades of expertise.

PURGE-READY

- + Integral design and optimized for purging
- + Ensure low O₂ and CO₂ level
- + O₂: max. 1 %
- + CO₂: max. 0.01 %
- + Additionally sealed pusher shaft
- + Housing/front plate/front door with additional seals
- + Air separator with vent air return to minimize purge flow requirements

FOCUS AREAS

Sodium Chloride

Sodium Sulfate

Ammonium Sulfate

Soda Ash

Adipic Acid

Lithium Hydroxide

Many others

MODULAR AND FLEXIBLE DESIGN

- + Enables quick conversions
- + Easy to maintain
- + Adapts to new requirements

INTEGRATED PRE-THICKENER

- + Developed to handle low solid feeds efficiently
- + Cuts process costs by reducing upstream effort

HIGH THROUGHPUT

- + Stable output under tough conditions
- + Efficient even at high volumes

INNOVATIVE WASHING AND RINSING SYSTEM

- + Developed by Ferrum for high process demands
- + Thorough impurity removal, efficient rinsing
- + Lower liquid use by smart design
